#4	FYI Actions	Create Email <ul style="list-style-type: none"> <li>An Email will be created from the "FYI: Another Quarterly Report Remind" templ                             <ul style="list-style-type: none"> <li>Created email will be <b>immediately</b> sent</li> <li>The document will be AutoFiled</li> </ul> </li> </ul>

# How to import:

Before you begin - ensure your Jobs View has been saved.

- Job State - Planned
- Search jobs - quarterly management jobs

## Step 1 - Save the import file locally

The first step is to download the zip file provided in FYI's help centre.

Simply save the file locally, for example, in your Windows Explorer Downloads folder. You do not need to extract the files.

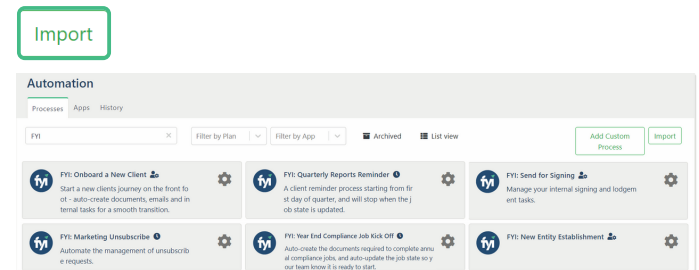

## Step 2 - Import the files into FYI

Navigate to the Automations screen and click the Import button on the right-hand side of the screen.

Locate and select your saved "Quarterly Report Reminders" file and click Open to import the automation.

You can also drag and drop the zip file to the Automation list view.

The Process and Templates will be imported into FYI.

## Step 3 - Review the process

Review the Templates

Locate the templates in Knowledge - Templates. The templates will import with the prefix FYI making them easy to locate.

- Review and personalise the imported templates
- Update the template Status to Active.

Edit and Review Each Process Step

The Processes are imported with the Status set to Draft. You can locate the process by searching in the "Search processes" field.

- Review the schedule and owner
- Review and update each process step. Specific comments have been added to the steps where action is required. These will display in blue.

## Step 4 - Test and run the automation

Click the Test button to display a list of the Jobs and associated Clients.

From Select Test Job, search and select a specific client to run the test for and select Run Test. A Test Client is handy for testing scheduled automations.

Review the test by clicking the View History link, or from the Client workspace.

When ready, set the Status to Active. The process will run automatically according to the schedule.
